Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: The overdevelopment of properties in Cricketers Drive has led to an unacceptable parking problems. With the reduction of parking spaces at the side of the properties more and more residents are parking not only on the road but on the pavement which causes problems for pavement users. In previous property applications, which have been approved, it was stated that there should be 2 parking spaces side by side in front of the properties. However this has not been not enforced and hasn't happened causing increased street parking. This increased street parking has made access for delivery and emergency vehicles problematic. With the in fill of drive ways in the road it has changed the feel of the 1960 open plan design. With no access from the front to back of the properties there is increased bins and refuse left in the front of the properties.

Kind regards
