

Planning Application 20260757  
Land South of Bowesden Lane  
Shorne

Dear Sirs

I am writing to confirm that I support and approve the above planning application. The land is a single plot and would not cause any disruption to the area, the design of the house is in keeping with other houses in the area and would in fact make a lovely addition to the end of the lane. I remember the land adjacent to the See Hoo pub being turned down several times for various planning applications to build a property on the land, only for it to be sold to travellers who turned it into a Gypsy and Traveller site for two static homes, two touring caravans and a shared day room. The proposal drew well over 200 objections before being approved by councillors in June 2025. This caused so much anger and frustration to local people which was totally ignored by Gravesham council. I had several conversations with the planning team and was told 'the council have not met their legal requirements to provide enough gypsy and traveller sites within the borough', which is why the application was approved. The reason I am mentioning this is because should people object to this application and the owner sells on the land, we might well have a similar problem with this piece of land in Bowesden Lane. I certainly approve this application and hope that Gravesham Borough Council do the same.

The reason this is anonymous is to avoid any repercussions from said gypsy/ traveller site in Pear Tree Lane
