Comments Details

Commenter Type: Neighbour

Stance: Customer made comments in support of the Planning Application

Reasons for comment:

Comments: This proposed driveway would take several from the existing roadside parking. It will also allow the charging of their work vehicle more safely and conveniently. The proposed off street parking is similar to that of one a short distance on the same side of the road.

I therefore support application 20240820 which will be beneficial to all concerned

I also support the application for the proposed loft extension subject to the party wall agreement being in place two months before work commences.

Kind regards
