Reasons for comment:

Comments:	<p>I am writing to object to the proposed development of new housing in our area. I believe this would have a detrimental impact on both the local environment and the community.</p> <p>Impact on the countryside: The proposed site lies within a valued stretch of countryside that provides natural beauty, wildlife habitats, and recreational space for residents. Building houses here would irreversibly damage the rural character of the area and erode the green landscape that defines our community.</p> <p>Traffic and infrastructure concerns: The local roads are already under significant strain, with congestion and safety issues becoming increasingly common. Adding further housing would introduce a substantial increase in traffic, which the current road network simply cannot accommodate. This raises serious concerns about road safety, air quality, and the overall wellbeing of residents.</p> <p>For these reasons, I respectfully urge the planning authority to reject this proposal. There is a reason why people move to this area and this will irreversibly damage this.</p>
