Reasons for comment:

Comments:	<p>The current road system layout on the A227 near the proposed site, has no traffic signal control. It is a black spot for all road users. Cars are parked at school pick up time and many secondary school age students fill pavements on both sides of the A227 walking to and from school in morning, lunch time and afternoon. Pedestrian and traffic signalling control would be essential. However it will in turn slow down and back-up traffic on the key arterial road A227. This might be mitigated to some extent if the proposed number of houses were considerably fewer, say 100 but preferably less.</p> <p>Road safety especially to pedestrian users is paramount and the given the current level of traffic flow, vehicle type, footfall to and from schools and Meopham Parade retail outlets, I object most strongly to the proposed application.</p>
