Comments Details

Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment:

Comments: The application involves access from the property onto the A227. This road is experiencing large volumes of traffic with long tailbacks.
The general parking in this area is atrocious. Residents who are unable to open up the front of their properties are left searching for parking at all hours of the day. The loss of yet another area is not acceptable. This area is subject to parking by residents, non residents, St George's school, St Mary's church, toddler groups, commuters, business residents who have multiple trade vehicles mainly transit vans.
I am also led to believe that other residents on Wrotham Road on this area have been denied parking areas.

If this plan is to proceed I would request that the powers that be look into other measures that may help current residents ie parking permits and one way traffic in Hillingdon from Singlewel Road thus preventing cut through.

Kind regards
