**Re: Discharge of condition no. 5 details of measures to divert the public sewers
as per Decision Notice Ref. 20220431.**

Dear Sir/Madam,

I hope this message finds you well.

We are writing to formally request the discharge of the condition relating to foul drainage, as outlined in the planning decision notice.

Following the submission of detailed plans and technical information regarding the proposed connection to the public foul sewer, a Section 106 application was submitted to Southern Water. We are pleased to confirm that this application has now been approved.

Southern Water has reviewed the technical documentation provided and has confirmed that they are satisfied with the proposed method of connection to the public sewer network. This approval demonstrates that the necessary standards have been met and that the drainage strategy is considered acceptable.

In light of this, we kindly ask that the relevant condition be discharged, as the requirements have now been addressed in accordance with the approval granted by Southern Water

Please do not hesitate to contact us should you require any further information.

Kind regards,
Sonia Rajaratnam
