

Good afternoon,

I am writing to register my formal objection to the proposed 5 new housing sites across meopham and Culverston.

This will create an unmanageable amount of traffic and extra foot flow into local parking and shops which will make living here awful.

I paid a lot of money to move to a quiet rural town location and this will achieve the total opposite!

If this continues you will be receiving a request for funds to help us move following the destruction of our beautiful rural town!
