Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I strongly object to Another 100 homes being built this could potentially mean another 200 cars moving around in a very small area, chewing up the road surfaces, trying to get in and out of the shop car park in an area already stretched for space. We just don't have the infrastructure. Getting in and out of Worcester Close safely, weaving through parked cars along Lewis Road, is already challenging. It's going to be beyond busy. I live on the main road of Istead Rise and it's beyond a joke now to get out of my drive. Not only the amount of traffic approaching the shops let alone the speed in which they travel up the road. There are already massive lorries and delivery vans blocking roads whilst the work goes on. The small development in Worcester Close hasn't been easy for residents there, spoiling the green belt and killing the natural wildlife habitats . There has already been a massive impact this year on our water supplies being interrupted & poor pressure without adding to the problem building 100 new homes. It's impossible to make an appointment at the local doctor due to lack of availability & services stretched NHS services so please don't build more houses and add to the massive burden on our community services.

Kind regards
