Commenter Type:	Neighbour
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	Since the gate has been installed I have noticed a lot less fly tipping and no anti social behaviour going on at the site. The containers do not prevent me from accessing my garage as the area on which they have been placed was covered with fly tipped rubbish and you could not drive over that. The containers have covered the area where the drug taking and drinking was going on, so they have been a huge benefit. On a number of occasions my mother was frightened from walking past the site because of the type of people hanging around there. This is no longer a problem. I note the previous person commented that the area is used as a builders yard, this not the case as i can not see any building materials there. The gate and containers have prevented anti social problems and so i fully support the application.

Kind regards
