Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I write to object to the above planning application for the following reasons: * The planned extension is only a few feet from the fence line which in turn is only a few feet from the road. It will completely block out all light from the road into the garden. * It will completely diminish privacy of the garden. * It will completely overlook the garden and will result in a lack of privacy. * It will obscure light into the garden. * Previous work done in to build a driveway recently resulted in cracks in the wall due to the use of heavy machinery drilling into the ground. Further work may result in further damage to the property. * It will require the use of heavy machinery/equipment and of heavy vehicles which have already damaged the path outside the front door where the vehicles have cut the corner and damaged the pavement and kerb, resulting in puddles of deep water outside the front door when it rains. * Station road is narrow and has parked cars all the way down one side. It is not suitable for heavy traffic or vehicles and my car has already been damaged more than once by vans/lorries turning into the driveway of number 19a when they have clipped the front or side of the car. Other cars have also been damaged.
