Reasons for comment:	
Comments:	This site is totally unsuitable for housing development, it is high grade farmland used for food production and given the current threats to our food security it should be kept as such. Vehicular access via a narrow rural lane would be dangerous in the extreme. Meopham has neither the facilities or infrastructure to cope with the huge increase in population from the proposed developments in the village, there are many brownfield sites within the borough which are more suitable for development than any of those proposed for Meopham.

Kind regards
