I have the following comments on planning application number 20260207 :

Among the many reasons I have for objecting to the above housing plan are:

1) These green fields are not just a barrier to urban sprawl & a habitat for our diminishing wild life they are also good arable land. They have been used for growing crops for decades, and remember CROPS mean FOOD. In a time of such international unrest & wars in the middle east we need to be self-sufficient in food. The amount of arable land in Kent that is being built on amounts to the wanton destruction of a national resource. There are plenty of brown field sites by the Thames in

Gravesend, [REDACTED]

② The [REDACTED] increase in traffic through Sole Street will be disastrous and potentially life threatening. In Sole Street there are no street lights and no pavement on the eastern side of the main street. Where I live in Vine Cottages it is necessary to step out onto the road to see if there is any oncoming traffic. I have already had several near misses trying to cross the road. The next could be my last so the potential increase in traffic really scares me.

3) No space to mention The doctors ^{are} already ^{have} full lists, Building on open fields will decrease water capture ^{and Sole Street floods already}
