I have the following comments on planning application number 20260207 :

It is Grade 2 Agricultural Land we which we need.

It is home to many wild life and feeding for birds.

The infrastructure isn't in place to accommodate the number people. It is already very difficult getting a doctors appointment. We already get power cuts so it would impact all services water, roads which already so busy it is difficult to get out of side roads.

The roads are already in a bad state of repair more traffic means more pollution and more potholes.

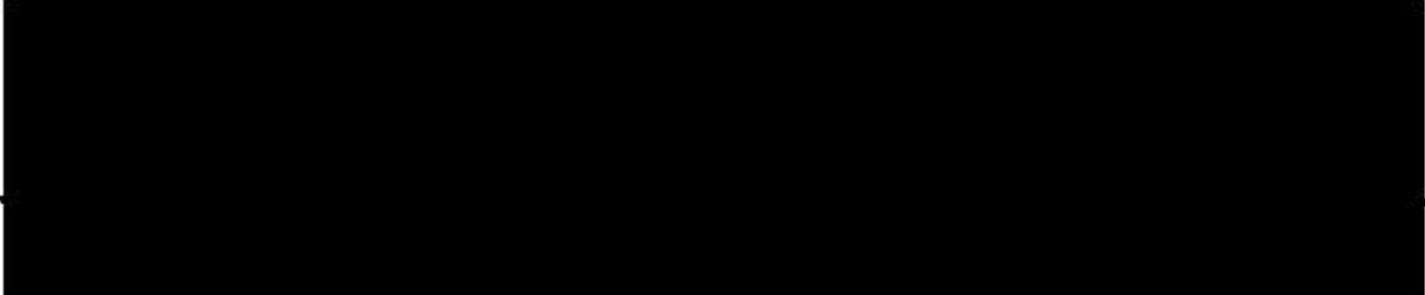

Should this go ahead it will be ~~adding~~ reducing the light to our property we moved to ~~be~~ be away from a town where we can walk and see green fields the quality of life will be impacted for all residents of Meopham in more ways than can be listed.

I have the following comments on planning application number 20260207 continued:

 we always understood said

that the land would never be developed.

Health services both doctors and Hospitals won't be

able to accommodate the influx of so many new residents

and the health of those living here will deteriorate because of the loss of clean air and open space.

This is a Village not a town stop trying to make it like Kings Hill or Ebbsfleet Please!

People matter more than £££ - There are Greenbelt sites which this does not meet the accepted definition of it is still Greenbelt.
