I have the following comments on planning application number 20260207 :

There is no need for 725 houses to be built along Norwood Lane/Conner Road. The roads are narrow and are described as Country Road. The volume of traffic will increase to potentially an extra 1,450 cars. This will increase pollution, as will the building of the houses. construction Pollution, Light and Noise. All of this will cause poor air quality and induce health conditions, such as asthma and others. Building an extra school will also contribute to extra vehicles

I have the following comments on planning application number 20260207 continued:

and parents & carers - dropping off and collecting children may become hazardous due to the volume.

Emergency Services will become seriously hampered by the closure of Neward Lane.

In addition to the extra increase of cars this will also become exacerbated by delivery vehicles and vans such as Ocado + Amazon etc.

We need to retain Green Fields & Green Belt, this is Grade 2 Agricultural land that should be used for ~~car~~ crops!)
