Net Waste contributions requested:

Kent County Council is the statutory 'Waste Disposal Authority' for Kent, responsible for the processing/disposal of household waste, providing Waste Transfer Stations, monitoring closed landfills. Kent residents make approximately 3.5 million tonnes of a 1/4 tonne of waste to be processed at HWRCs, and 1/2 tonne to be processed under growing pressure with several HWRCs and WTSs over operation.

In accordance with the Kent Waste Disposal Strategy 2017-2035, contributions towards Waste facilities, or towards the creation of new facilities where a proposal is for new services. Existing Waste services will be assessed to determine the available capacity before developers are requested to contribute to additional provision. The contributions generated from the proposed development are set out below:

A. WASTE TRANSFER STATIONS (WTS)

Additional waste generated by new households increase the throughput of Waste Transfer Stations.

1. Applicable dwellings from this development

- 2. Applicable dwellings from ALL proposed developments for County-wide projects (up to 2030)**
- 3. Overall cost of increasing capacity for 70,100 new dwellings by 2030*
- 4. Cost per new dwelling (£9,056,920 / 70,100 new homes)*

Contributions requested from this development

13 dwellings from this proposal

Contributions requested towards Ebbsfleet WTS

B. HOUSEHOLD WASTE RECYCLING CENTRES (HWRC)

Additional households increase queuing times and congestion at HWRC

1. Applicable dwellings from this development

*2. Applicable dwellings from ALL proposed developments for County-wide projects (up to 2030)**

3. Overall cost of increasing capacity for 64,200 new dwellings by 2030

4. Cost per new dwelling (£3,496,974 / 64,200 new homes)

Contributions requested from this development

13 dwellings from this proposal

Contributions requested towards Ebbsfleet HWRC

Net Contributions requested for KCC Waste from this development

*** Estimated**

Note: These projects will be delivered once the money is collected except where the project will commence as soon as practicable once the funding target has been met.

Note

HWRC rate would be applied to northern part of District as per HWRC catchment maps, as this area falls within 20 minute drive time of Faversham HWRC which does have an identified project.

HWRC rate would not be applied to southern part of Borough as per HWRC catchment maps, as this area falls outside 20 minute drive time of a HWRC with an identified project.

HWRC rate would not be applied to eastern part of District as per HWRC catchment maps, as this area falls outside 20 minute drive time of a HWRC with an identified project.
