

Objection to Planning application from [REDACTED]

During a rush (2)hour(s) and at school arrival and departure times, the traffic in this area which serves Culverstone shops and Meopham school, library and GP.s, is horrendous. Restricted parking often makes these facilities impossible to visit.

The Lane proposed for access is single track and impassable at certain times of day. More generally, this site is a greenfield site and should be preserved as such. Rather than making money for developers, existing houses should be renovated.

Thankyou for your consideration.
