Reasons for comment:

Comments: I should like to submit my comments regarding the above appeal:

The White Post Lane site was originally occupied with precise planning by the appellants over a weekend to avoid any attempt by the authorities to intervene, showing their intentions to thwart the legal process from the beginning.

This is an illegal site development on green belt land. Mature trees were felled to accommodate the introduction of caravans. The site is in a restricted area where highway safety and traffic is a major concern.

There is a continual harm to the Green Belt and a negative impact on trees, open land, and wildlife especially now mature trees have been cut down . From the train you can see high fences obscuring some of the buildings but you can also see the continued expansion of the site. The visual impact to the area is negative. The site would place undue pressure on local services drainage, utilities, and local schools

The noise and disturbance and enviromental concern is immense Dogs are barking no stop in a small confined area .

The appellants have a legal site within the Borough and agreed at a previous enquiry that they would leave the White Post Lane site .

Their continued applications are blatant attempts to further frustrate the law, the wishes of the Borough Council and the residents of Sole Street.

In addition the site is also being used to run businesses from with the consequent increase in vehicular traffic in White Post Lane, which is unsuitable for this type of use and a danger . There has been continual disruption from traffic throughout the narrow unsuitable roads in Sole Street

Kind regards
