Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	No infrastructure for more housing ,water and sewage often has problems in and around the driveway due to not being built to accommodate vastly more housing . Waiting time for doctors is already excessive not to mention local hospitals, and school places are non existing.Transport (bus service) is at a minimum ,was going to be removed about three years ago! .So without a car you cannot get anywhere.Due to this the driveway and surrounding roads will be overwhelmed down to narrowness and parking. There are several planning applications for istead rise at this moment in time ,so I would imagine just these few things would destroy istead rise as a community.Suppose we need more cities than communities ,even when farmland is essential for food security in these changing climate changes .Last week the farmer was ploughing this field ready for planting I presume?

Kind regards
