Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I strongly object to this. Since the facility has opened, it has disrupted the local area with no benefit to the local community. Due to the site access, it is extremely difficult to leave our road at peak times for the club and the users of the club do not abide by rights of way on narrow, often restricted roads. This results in even more congestion in area not designed for the way the facility is being used. I have lived in Nelson Road for nearly 18 years and the parking has become even more difficult since the facility opened, not helped by the double yellow lines which were introduced recently, again only since this facility has opened. The local infrastructure was not designed to host a sports site like this and any further advancements would simplyacerbate the issue. I'd also challenge if this is really a venue for the local community as it has not given any benefit, only detriment to date.

Kind regards
