Commenter Type:	Consultee
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I object to the change of land usage on many levels! Firstly, it's green belt land, for agriculture, set aside to balance the countryside and coexisting eco systems! 'Ripping' trees out was very disrespectful, it was obviously done to move the mobile home into the field! As the size of the mobile home would not fit down the lane prior to the trees being removed.....it wasn't air lifted in! I feel for people trying to set up home in our society, we have an unaffordable system that allows the rich to get richer and the poorer to work themselves into an early grave working to rent a roof over their heads! But this move could have been done more respectfully! I object to burning the rubbish created there....it's polluting....can they not bag it up and take it to our local tip! I object to the flood lights causing light pollution, it's a countryside plot for animals to thrive and people to relax in the night time skies....could they pick a town based plot if they want more light! Or consider turning the lighting down! I object to the hoops I would have to jump through to put a kitchen extension on to the land I own, yet they can build a brick structure as their entrance and lay foundations! This is not a nomadic lifestyle or showing respect to the countryside way of life! Whatever the outcome of this, can it be put across to encourage a respectful attitude, turn the flood lights off and manage the countryside better as their heritage did? I certainly do understand how unfair the housing market is, but the council needs to be fair to current residents!
