Reasons for comment:

Comments: If someone can place a static home on land with no planning approval and in the process of doing so, completely destroy surrounding trees, habitats and greenbelt, what makes anyone think that that individual, once granted approval will then respect the restrictions on that approval?
The current set up is an eyesore, the static home and caravan should not be placed on greenbelt land, this is an illegal settlement. The destruction to the lanes, in bringing the caravans onto the land has clearly proven that the roads are not built to support an increase in traffic / large sized vehicles. The complete disregard for legislation and the communities of Sole Street and surrounding areas should not be ignored. The reduction in natural habitat due to the placement of the caravan on greenbelt land is tragic, especially in an area where a number of different plots of land have already been provided planning permission for new homes. We should be fiercely protecting what we have left in this Borough. The land has been churned up by horses, vehicles and waste. Trees ripped out from the root or cut down and grass verges flattened , this is a clear indication of the disrespectful behaviours which will continue if not rejected and the caravans removed.

Kind regards
