Reasons for comment:

Comments:	<p>Over recent years, a significant amount of local farmland has already been developed in the neighbouring areas, which has negatively impacted existing infrastructure and steadily reduced the rural character of the area. Local roads and services are already under pressure, and further development would exacerbate these issues.</p> <p>Farmland is a valuable and finite resource and should be protected from continued loss to housing development. The ongoing erosion of agricultural land in this area is happening too frequently and is unsustainable. This proposal would contribute further to that harm and should be refused.</p>
