

ECOslide PVC-U sash windows will enhance your home

Vertical sliders are a traditional style of window. Commonly found in older properties, they are usually manufactured from timber. This elegant type of window is a popular replacement in period houses, its design giving your home a sophisticated charm and style that you won't achieve from a standard casement window. Real timber windows can be expensive so homeowners look to more affordable solutions such as PVC-U.

Whether you live in an older property or a more modern home, **ECOslide** PVC-U sash windows are a cost-effective solution for replacing like for like replacement or as an alternative to other styles.

Choose from a range of colour and hardware options to complete your window and create a look that fits in perfectly with your home.

Windows to suit your style

We offer a range of sash window styles to match your old windows as closely as possible and maintain the signature "design statement" for your home.

We can replace bay-style windows including splay and box bay windows. These are a common feature in older properties and when combined with a sliding sash window the installed appearance is very impressive.

We can also replace arched and swept head windows. These shaped styles are incredibly eye-catching. **ECOSlide** PVC-U sash windows are bespoke-manufactured to your exact requirements, to maintain the appealing charm of your home.

Other additional design options are available with internal Georgian Bar or external Astragal Bar detailing, to ensure your new windows are truly authentic in style.

A small selection of the styles available

Sliding

ECOSlide PVC-U sash windows primarily function like a wooden box sash window with both the top and bottom sashes sliding up and down to suit your ventilation requirements.

Convenient and simple to operate, the two sliding sashes within an outer frame work independently of each other on a balanced load mechanism, designed to hold the sash at any height.

Tilt & Easy Clean

ECOSlide PVC-U sash windows are incredibly low maintenance, requiring only a quick wipe down with a damp cloth to keep them looking as good as new.

The window sashes feature an inward opening tilt facility to allow easy and safe cleaning of the outside frame and glass from inside your home. This is particularly useful for second storey windows or windows positioned in a hard to reach place, such as above a conservatory.
