Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	Along with many other residents of Lower Higham, I continue to object to the re-development of the Nuralite site, and the one way system which is being introduced to enable the large lorries to access the site - providing the material to cap the asbestos. The whole plan brings disruption and travel chaos to a rural area. I attended the Gravesham Council Planning meeting which unfortunately gave approval to this change. At this meeting, there was no serious discussion about the potential risks there are for lorries turning from Lillechurch Rd to the B2000. The discussion was superficial and no consideration of the problems this is going to cause was discussed seriously. My understanding is that Kent Highways will need to authorise this change because of the risks and dangers to road traffic. I cannot see on the current document any information that this has occurred. Please confirm if this had taken place. Thank you.

Kind regards
