Reasons for comment:

Comments: I'm the owner of [REDACTED] Beresford road house, I always have to put the light on as their extension has blocked all [REDACTED] light in the back when they originally built the extension without any planning permission or even asking [REDACTED] and notifying [REDACTED] which this neighbour has lied about to other neighbours saying [REDACTED] have agreed to this extension being built but [REDACTED] have not. This neighbour is always drilling or doing noisy work past construction times such as on a Sunday at 8pm and on a Saturday at 6pm when we have told them to stop as the construction time limits their noise to 1pm. They even start work before 8am on weekdays. They have also left dirt and dust in our front and back garden each time as well as some of their equipment being left in [REDACTED] back garden ie screws, nails and wood. My child also finds it extremely difficult to study and do her homework with her exams coming up as the light is all blocked and I am having to pay extra electricity bill to turn the lights on in the morning and during the day. We have also been made aware that they have taken the chimney out or tried to after they had damaged [REDACTED] wall. They told us that they would fix the damage yet nothing has been done. I am now planning on getting a couple of quotes from qualified construction workers to fix the damage on the wall as we have been let down so many times by 55 ie "We will come tomorrow and fix it", or will ring our doorbell when none of our cars are seen home. We expect 55 to pay for the wall damage with whichever quote we are offered. I have already confirmed one quote and am now waiting on the second quote. This is a very stressful situation.

Kind regards
