Analysis

Procedural Matters

The planning application form states that the eaves height would be 2.6m, however the accompanying proposed elevations have an eaves height measuring 2.8m. This application has therefore been assessed on by the measurements of the submitted drawings.

Under Schedule 2, Part 1, Class A.1 (g) of the Town and Country Planning (General Permitted Development) (GDPO) (England) Order 2015, as amended, a single storey family dwelling can extend beyond the rear wall by 6 metres in the case of a semi-detached property, as long as it does not exceed 4 metres in height.

As per Schedule 2, Part 1, Class A.4 (2), the applicant has provided sufficient information to support the application.

The submitted information demonstrates that the extension will have a pitch roof with an eaves height of 2.8m, a maximum height of 3.6m metres and a depth of 6 metres; all within the parameters specified under Class A.

The adjoining properties were consulted in accordance with A.4 (5) and no representations were received. Therefore A.4 (7) has not been triggered and impact on neighbour amenity does not require investigation.

It is considered that the details and documents provided with the application are sufficient and no further information is required under A.4 (8) to determine the proposed development.

Conclusion

The proposed development complies with **THE TOWN AND COUNTRY PLANNING (GENERAL PERMITTED DEVELOPMENT) (ENGLAND) ORDER 2015, AS AMENDED**, and it is considered **PRIOR APPROVAL IS NOT REQUIRED**.

Informatives are recommended relating to the extent of this prior approval, the development to accord with the information provided and requirement to comply with Building Regulations and works of construction etc.
