Dear Sir / Madam,

**Comments for Planning Application – 20240661
Land on East Side of Church Street, Higham**

At a recent meeting, our Planning and Highways Committee discussed progress about this 'change of use' application. It was noted that a 'Noise and Field Management Plan' has been carried out and the '9-12 dog session has been permanently removed to ensure sessions remain management and safe.'

Committee members also noticed that their previous comments regarding concerns about increased traffic and a trial period to monitor the traffic along Church Street (a single-track road) haven't been addressed.

We previously wrote to Gravesham Borough Council to request a condition to this planning application that limits vehicle movements along Church Street, so the change of use of this land has minimal impact on the village.

Higham Parish Council would therefore like to request that a traffic monitoring session is carried out along Church Street before a decision is made to ensure our village is not negatively impacted.

Please consider our comments carefully when reviewing this application.

Yours faithfully

Rachael Martin
Clerk and Responsible Financial Officer, Higham Parish Council
