Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<ul style="list-style-type: none"><li>- The proposed development would add a large volume of traffic (potentially around 300 cars and delivery and service vehicles) to roads in Meopham that are already congested. The nearby junction of Green Lane and the A227, which is near the shops and associated parking in the parade, would be overwhelmed by the volume of traffic and would become more hazardous for cars and other vehicular traffic, and for people on bicycles.</li><li>- Green Lane is a small rural lane and the access to and from this proposed development would be dangerous, for cars and other vehicular traffic, and for people on bicycles.</li><li>- The proposed development would mean high grade farmland that currently contributes to food production would be lost. This would in turn lead to higher CO2 emissions as agricultural produce would have to be brought to the Southeast from further away.</li></ul>
