Reasons for comment:

Comments:	<p>The proposed development involving 150 new houses would add 300 cars and delivery and service vehicles to local roads. This would lead to increased congestion and greater danger for road users (drivers and cyclists), and would be more hazardous for pedestrians crossings busy roads.</p> <p>Green Lane is narrow and the foot path is narrow near the access to the proposed development (and the current Green Lane footpath switches from one side of the road to the other near the proposed access). The access to the proposed development is dangerous.</p> <p>High grade farmland which currently contributes to food production would be lost if the the proposed development goes ahead. We should not be importing more food but should keep high grade farmland for agricultural needs and avoid importing food.</p>
