I wish to **object** to planning application number 20260649 for the reasons stated below:

- Too much proposed construction for a very tight and rural area
- Not only are the roads inadequate for the amount of traffic that is likely to be generated by the development. There are also many rural small roads in the area that will be unable to cope.
- This area lacks in transport resources all round and most residents are reliant on their cars. There is a lack of public transport and there are no safe alternatives for cycling/walking
- The loss of protected green belt habitats will be a severe loss
- As a whole the plan seems to be completely inappropriate for the area and will overwhelm what is a small rural community.
