Reasons for comment:	
Comments:	In addition to my previous comments provided please can I also raise the following concerns in relation to the proposed new driveway servicing the rear of properties: Currently I enjoy a quiet environment at home with no traffic passing at the side of my property which is consistent with every single property on the road. i.e. there are no driveways which run along the side of any property on the road or even to the rear of any property. All driveways on the road are at the front of the properties. The proximity of the proposed driveway to my boundary wall and the shape of the proposed driveway with the turn at the end/in line with my house will result in noise from vehicles passing and in the evenings/early mornings vehicle lights shining into my property. This will adversely impact my current quality of living at my property.

Kind regards
