

Dear sir/madam, i am writing in regards to the above planning application as for some reason can not log into my account. I would like to point out that these garages are NOT disused..i myself rent one of them and i know of 6 others that are rented out. I objected to the previous application on the grounds of parking..as empress road is a very narrow victorian road. Its already a nightmare as more houses in the street are being allowed to be turned into flats. I would be more than happy for a local councillor to contact me and come and have a look at the problems this application would cause.

Kind regards [REDACTED]
