Reasons for comment:

Comments:	I have no idea how these applications are still being allowed to be submitted by the owner of number 7! He's tried multiple times before and hasn't been successful for very good reasons! There will be a significant impact on the road as it is already becoming busier without an extra house space for extra cars and extra refuse needing to be collected! He has never lived here personally so has never witnessed the busyness of the road all he has done is rent out said property which hasn't resulted in the best circumstances in the past! There are bungalows for a reason as stated on the original planning documents from when the estate was first built and because of the affect of subsidence on the residents below in the sandpipers adding a whole extra building will only impact that even more! [REDACTED] [REDACTED] From looking back at the original plans of the estate there was supposed to be an extra bungalow on the green next to this property and it was decided to remove this because of the obstructions and impact on the land and the road with it not being a very big estate in the first place adding another property when it was already architecturally decided against would be detrimental to the road. Most of the neighbours on this estate already opposed this plan when it was submitted previously to have us have to keep opposing time after time is not only a waste of our time but it's also anxiety inducing never knowing whether the we will be forced to have the view and the aesthetic of our already beautiful road will be forever changed and impacted negatively.
