Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	I believe that this is the same application that was rejected a couple of years back? If so, nothing has changed to make this now a viable proposal. My objection is based on the fact that we do not want more people with cars in this area, it is already a nightmare getting in and out of the "estate" at the moment. In my mind there is no advantage to the area/location in replacing one property with two and is only being done for financial gain. I also don't think that there are any semi detached properties in this part of the "estate" (there are link detached properties). If permission is granted (and a precedence set) what is to stop other properties in the area from following suit?
