Dear Sir/Madam,

Re: Application for Additional Driveway Access – 1 Cambria Crescent off Leander Drive

I am writing to formally request permission to create an additional driveway at the front of my property located at 1 Cambria Crescent DA12 4NJ]. The current parking provision at the rear of the property only accommodates one vehicle, which is proving insufficient for my household's needs.

Due to the limited parking space, I am often left with no choice but to park on the street, which not only poses an inconvenience but also contributes to congestion and reduced visibility for other road users. By adding a driveway to the front of the property, I aim to improve off-street parking arrangements, enhance safety, and reduce reliance on on-street parking.

I understand that any changes to the frontage and access to the highway must comply with local planning and highways regulations. I am fully prepared to meet any design and safety requirements, including appropriate access, surfacing, and drainage provisions.

I kindly request that you consider this application favourably. Please let me know if any further documentation, drawings, or site plans are required to support this request.

Thank you for your time and consideration.

Yours faithfully,
Naveed Janjua
