

20250721

I strongly object to the above planning application.

I live in the area and use this roads frequently.

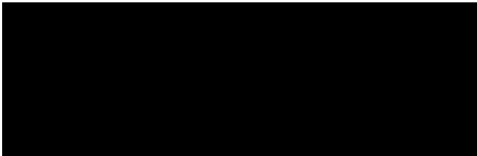

This would create a hazard for walkers cyclists and horseriders using these country roads.

More lorries in a rural area are to be avoided and why is not rail freight being considered.

Plus a one way system on such large areas of country roads is to be avoided as open for lots of mistakes by users.

Please refuse this application.

Yours sincerely
