Analysis

The proposed extension will be constructed inline with an existing single storey rear extension which was permitted under reference 19880115. Under the permitted plans for 19880115 a larger single storey rear extension was permitted however it would appear that a part width extension was constructed instead.

Plan permitted under 19880115.

The proposed development is considered to fall within the acceptable parameters of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

Conclusion

The proposed development falls within Schedule 2, Part 1, Classes A of The Town and Country Planning (General Permitted Development) (England) Order 2015, as amended. Therefore planning permission is not required and a Lawful Development Certificate can be granted

Recommendation: Grant Lawful Development Certificate
