Dear Sir/Madam

Planning consultation: Erection of a building to contain three 1-bedroom studio flats at the rear of 7 King Street.

Location: The Kings Veg, 7 King Street, Gravesend, Kent DA12 2EB

Thank you for your consultation on the above dated 25 July 2024 which was received by Natural England on 25 July 2024

Natural England is a non-departmental public body. Our statutory purpose is to ensure that the natural environment is conserved, enhanced, and managed for the benefit of present and future generations, thereby contributing to sustainable development.

SUMMARY OF NATURAL ENGLAND'S ADVICE

FURTHER INFORMATION REQUIRED TO DETERMINE IMPACTS ON DESIGNATED SITES

The proposed development has the potential to have a harmful effect on terrestrial Sites of Special Scientific Interest (SSSIs) and those Special Areas of Conservation (SACs), Special Protection Areas (SPAs) or Ramsar sites that they underpin.

Natural England's statutory advice on these potential impacts is set out below.

Further information required - recreational pressure impacts to European Sites (habitats sites)

This development site is within the zone of influence (Zol) for recreational pressure impacts to one or more European Sites (habitats sites).

Within this Zol, proposals for any net increase in residential units will have a likely significant effect on the qualifying features of the European Site(s) (habitats site(s)) through increased recreational pressure when considered either alone or in combination with other plans and projects.

Your authority has measures in place to manage these potential impacts through a strategic solution which Natural England considers will be effective in preventing adverse impacts on the integrity of the site(s).

Notwithstanding this, Natural England advises that these measures should be formally checked and confirmed by your authority, as the competent authority, via an **appropriate assessment** in view of the [Natural England Access to Evidence - Conservation Objectives for European Sites](#) and in accordance with the Conservation of Habitats & Species Regulations 2017 (as amended).

Providing the appropriate assessment concludes that the measures can be secured, it is likely that Natural England will be satisfied that there will be no adverse effect on the integrity of the European Site(s) (habitats site(s)) in relation to recreational disturbance.

Where the proposal includes bespoke mitigation that falls outside of the strategic solution, Natural England should be consulted.

Reserved Matters applications, and in some cases the discharge/removal/variation of conditions, where the permission was granted prior to the introduction of the strategic approach, should also be subject to the requirements of the Conservation of Habitats & Species Regulations 2017 (as amended) and our advice above applies.

Discretionary Advice

Natural England may provide further advice to the applicant through the discretionary advice service (DAS). Refer to [Developers: get environmental advice on your planning proposals - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/developers-get-environmental-advice-on-your-planning-proposals) for more information.

Impact Risk Zones for Sites of Special Scientific Interest

We publish Impact Risk Zones for Sites of Special Scientific Interest (SSSI IRZs), a GIS-based tool designed for use during the planning application validation process to help local planning authorities to determine if a proposed development is likely to affect a terrestrial SSSI and when to consult Natural England. For more information and to access the SSSI IRZs and user guidance, please visit the [Natural England Open Data Geoportal](https://naturalengland-open-data-geoportal.gov.uk/).

Further general advice on the consideration of protected species and other natural environment issues is provided at Annex A.

We would be happy to comment further should the need arise but if in the meantime you have any queries, please do not hesitate to contact us.

For any queries regarding this letter, for new consultations, or to provide further information on this consultation please send your correspondences to consultations@naturalengland.org.uk.

Yours faithfully

Samuel Norton
