Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I'm writing to object to this application. My main concerns are: Traffic and congestion: This development will add significant traffic to an area that already struggles, particularly at the top of Istead Rise near the Co-op, and the access point for the GP surgery, the field and the social club. Any increase here will make difficult junctions worse. Parking: On street parking is already a safety concern on part of The Drove Way. With many households now running two or more cars, the extra demand from this development is very likely to spill over onto The Drove Way, adding to a problem that already exists. Loss of green space: The area has already lost a considerable amount of green space and wildlife habitat at Worcester Close and this development would add to that loss. Pressure on local services: GPs, schools, hospitals and transport in the area are already stretched. Additional housing without matching investment in these services will only add to that pressure. I'd ask the council to take these concerns seriously when reaching a decision.

Kind regards
