Reasons for comment:

Comments:	I do not see how this application can be approved. The additional road traffic on both the A227 and the Longfield road is already heavily congested, especially the very narrow Longfield road. The Helen Allison School is a SEN school, with all pupils being delivered by road, majority of which are taxi's, the morning rush is heavily congested and the access is not the safest. As a SEN school many of the pupils will be sensitive to noise and sensory overload, have the construction of hundreds of houses will potentially cause then harm and distress. This application is also not the only proposed development in the immediate vicinity, these should not be looked at in isolation, with application 20250992 and 20251116 also looking for approval for an additional 500 houses, including this one a total of 620. This will result in thousands of vehicles using already congested and roads not designed for significant traffic. High quality farm land is being destroyed and the infrastructure in the village will not cope with these additional houses.
-----------	--

Kind regards
