Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	It's disgusting these selfish people can even consider building here when they have just taken our surgery. It's an absolute joke the infrastructure is not there. This selfish decision will result in • local residents struggling even more to get a doctor's appointment putting more strain on our already overloaded hospital. More houses alone is going to put more strain on the hospital resulting in more unnecessary deaths • our roads becoming even more overcrowded. I have lived here for over 30 years and I have noticed recently how many cars are on the road resulting in more accidents and pollution not to mention disturbance from lorries • children not getting into local schools meaning working parents have to travel miles • less green spaces and more pollution affecting wildlife and people's mental and physical health. These green spaces are used for nature which is rapidly declining, dog walks and exercise etc. There is no good reason at all to build these houses here, there are plenty of disused buildings elsewhere to renovate. These people don't care about anything but lining their pockets and only have their own interests at heart. No one else will benefit from this. Nature and many people will suffer

Kind regards
