Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	
Comments:	I strongly object to yet another planning application for yet more houses to be built in this area it will cause even more traffic congestion not only on the estate but getting in and out of the community very dangerous for pedestrians of all ages. Furthermore, more pressure on the GP surgery and local hospitals getting appointments now is difficult. It would also put pressure on local schools and Colleges and as it is there is severe lack of public transport. I have huge concerns around building on farm land which can never be reverted and in the current world climate the country needs to be able to fend for itself being able to provide its own food, in addition losing green belt land affecting wildlife etc. Ive also got huge concerns around water supplies especially hearing locally Southfleet an application is being considered for a Data Centre which requires huge supplies of water. I strongly object to this and all other planning applications in the area

Kind regards
