

Project Datum

All levels and coordinates are related to the Ordnance Survey national grid by means of GPS. One survey control point has been fixed using GPS and then the survey orientated to additional GPS points. No scale factor has been applied therefore only the fixed GPS point is a true Ordnance Survey position.

Measured Building Survey Legend

|      |                                                           |
|------|-----------------------------------------------------------|
| ACL  | Arch Center Level / Height above floor                    |
| ASL  | Arch Spring Level / Height above floor                    |
| C-H  | Window Cill to Window Head Dimension                      |
| CLD  | Ceiling Level / Height above floor                        |
| DH   | Door Head Height above floor                              |
| DHL  | Door Head Level                                           |
| F-C  | Floor to Window Cill Dimension                            |
| FL   | Floor Level                                               |
| SL   | Stair Lip                                                 |
| SCLG | Suspended / False Ceiling Level / Height above floor      |
| SL   | Stair Level                                               |
| SU   | Step(s) Up                                                |
| TH   | Threshold Height above floor                              |
| THL  | Threshold Level                                           |
| TW   | Top of Wall                                               |
| US   | Underside Level / Height above floor                      |
| USB  | Underside of Beam Level / Height to underside above floor |
| USL  | Underside of Level / Height to underside above floor      |
| WACL | Window Arch Center Level                                  |
| WASL | Window Arch Spring Level                                  |
| WCL  | Window Cill Level                                         |
| WHL  | Window Head Level                                         |

|                                                                                     |                            |                                                                                     |                           |

|                                                                                     |                            |  | Partitions                |
|                                                                                     |                            |  | Glazing                   |

All building measurements are taken to existing finishes or faces which are constant and represent an average face or wall line. All levels and dimensions are quoted in metres.  
All window head and window sill levels are internal measurements.  
Ceiling height measurements are taken to a point which best represents the general room height.
