Application Summary

Address: Nuralite Industrial Estate Canal Road Higham Rochester Kent ME3 7JA

Proposal: Application for removal of condition 4 ,6,12 and variation of condition 7 attached to 20190290 - The proposal is for the systematic redevelopment of the existing Nuralite site. This includes the importation of inert materials to cap, and landscape the historic asbestos landfill, thus containing its contamination risk. To demolish the existing buildings of the Nuralite industrial estate, deal with existing contamination, both through capping and removal of areas of hydrocarbon pollution, the laying of new service and utility infrastructure and the construction of 11 new purpose built light industrial type units and a site office; to allow removal of passing places, temporary traffic controls, Archaeological works and implementation of a permanent TRO for all traffic.

Case Officer: Mr Richard Hart

Comments:

Dear Mr Hart,

I would like to register my objection to this application. The proposal will cause chaos in terms of traffic, pushing unsuitably large vehicles onto roads that have an increasing amount of accidents. Note please the accidents on the B2000 over the last six months.

Residents like myself will be unable to make our regular journeys to the village. And the equine businesses will be forced to close temporarily.

Also, the asbestos should be moved by rail, not road.

Thank you for reading through my objection.

Yours Sincerely,
Mr Barrett

Kind regards
