Good morning Ms Richardson,

Thanks for the email, hopefully I'm not confusing you even more with the comments below.

756/01 does not show an extension

756/02 shows ex extension at no 15 existing East and West elevations and no extension at no 15A

756/101 shows ex extension at no 15 for the West elevation with the proposed extension at no 15A but not for the East elevation as it cannot be seen but it is shown on the rear elevation for no 15A.

756/102 shows rear extension at no 15A but not for no 15.

756/103 as above.

I've tried to show the extension at no 15A which will be generally at the same height as that for no 13A, in relation to no 15.

Kind regards
Dave

Dear Mr Pexton,

The case officer, Kelly Joyce has raised the following query with regard to the above application:

The applicant should clarify whether there is an existing rear extension at the application property. NB The existing layout plan does not show an extension but the existing elevation plan does. The proposed elevation plan shows part of an existing rear extension being retained but this is not shown on the proposed layout – this should also be clarified.

Please clarify and/or supply amended plans as soon as possible to avoid delay in deciding this application.

Many thanks

Kind regards

Stephanie Richardson
