28th November 2023

Mr. Ethan Bonthron,
Planning Officer
Gravesham Borough Council
Windmill Street
Gravesend
DA12 1AU

Dear Mr Bonthron,

Conditions Relating to Application 20230795

Following our previous submission to address conditions to the planning approval, we submit further information relating to Condition 8.

Condition 8 Meter Boxes

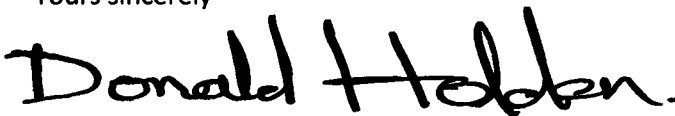

The installation organisation is insisting that the electricity meter for the basement flat be above ground level. Accordingly we are not able to place it out of site of the road as would be desirable, and in fact the only position acceptable to the installers is in front of the property. It is positioned in the recess of the front door so that the smaller side faces the road. The recess also shields it from some angles of view from the road.

There is a requirement for a gas meter. The proposal is to place it in a semi-submerged box to minimise the visual impact.

The colours chosen for least impact are white for the electricity meter and brown for the semi-submerged gas meter.

We look forward to your response.

Yours sincerely

A handwritten signature in black ink that reads "Donald Holden". The signature is written in a cursive, slightly stylized font.
