Reasons for comment:

Comments:	<p>Inconsistency with the green belt and its purposes. The development will deliberately harm the green belt and its associated wildlife and create an urban area that takes away our greenbelt. This is irreplaceable. We need to safeguard our countryside and wildlife, these feed into our food chain protect natural rhythms. The village will lose its character and identity, being merged into a sprawling urban landscape.</p> <p>We have insufficient infrastructure in the village as it is, poor public transport, overcrowded trains, congested roads and this poses a risk to pedestrians and road users. There is a lack of lighting and suitable footpaths in places. The current electricity can sustain the village and we have repeated power cuts.</p>
