Reasons for comment:

Comments:	<p>The proposed development of 350 Houses must be unacceptable.</p> <p>A development of this size brings with it a potential of an additional 700+ vehicles to a road system/area which is already overloaded, due to local and school traffic, HGV use as a cut through between the major two motor way system. In places the road is so narrow (Outside the George Pub) that pinch points exist. The road section where the local shop are is already an accident black spot. The lower Thames crossing will also increase the traffic loading on the Wrotham Road (A227)</p> <p>Commuting using the public transport bus system is very very difficult will this be improved??</p> <p>What about the local railway station services and parking will this be improved or left to just make do?</p> <p>Local health services which is already stretched is this to be improved expanded to cope with the increase demand.</p> <p>Local schools will not be able to cope with the potential of an additional 700 ish pupils of all ages.</p> <p>Conservation of the local Green Belt must be given!!</p> <p>This along with other proposed local area housing developments (All along the A227 ) they will have a detrimental down grading affect on the Meopham area with is an area of outstanding natural beauty.</p> <p>This is a case of development for development case, not what the community or area need!!!</p>
