Address:	[REDACTED] Ediva Rd Meopham Gravesend

## Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application

Reasons for comment:

Comments:	<p>I object to the proposal because:</p> <p>The proposed site adds 350 houses which is likely to provide at least 700 cars as there is limited public transport and cycling/walking is unrealistic for the bulk of transportation needs due to inadequate walking/cycling infrastructure and the availability of local facilities. This puts it in conflict with NPPF sustainable transport requirements.</p> <p>The access to the site is potentially dangerous. The area has seen a number of accidents which have resulted in changes to the road layout outside the shops at Camer Parade. These changes have not fully mitigated the problems around the A227/B260 junction and the service road and bus stop. These issues will be made worse but another local access point feeding in potentially hundreds of additional vehicles to the junction.</p> <p>The areas around the local schools become very busy at school drop off and pick up times, with many vehicles being parked along both the A227 and the B260</p> <p>The local facilities (GPS/Schools etc) do not have capacity to cater for this additional population.</p> <p>Bats live in Meopham and surrounding areas. These can often be seen early morning over Camer Park). There would need to be an assessment of any potential roosting sites in the proposed development area.</p>
-----------	--

This is agricultural land which is needed for food production if we are to reduce our dependence on high carbon imported food.

This area is Green Belt - As per NPPF 152-154 Inappropriate development is harmful to the Green Belt and should not be approved except in very special circumstances;

When considering any planning application, local planning authorities should ensure that substantial weight is given to any harm to the Green Belt;

'Very special circumstances' will not exist unless the potential harm to the Green Belt by reason of inappropriateness, and any other harm resulting from the proposal, is clearly outweighed by other considerations;

And further that a local planning authority should regard the construction of new buildings as inappropriate in the Green Belt.

---

Kind regards
